

## Tips & Tricks

### Auto Naming Excel Worksheets

When you run a Report to Excel from Accredo, the **Report Title** is now used as the Worksheet Name.

For example, go to Navigator > Reports > General Ledger > Account Reports > Trial Balance. Change the **Destination** to **Excel** and click **Run**.

You can see the Worksheet is renamed **Trial Balance**.

| Account Code | Account Name                     | External Account | Period Debit | Period Credit | Year Debit   | Year Credit  |
|--------------|----------------------------------|------------------|--------------|---------------|--------------|--------------|
| 1100.000     | Sales - Product A                |                  |              |               |              | \$48,390.86  |
| 1200.000     | Sales - Product B                |                  |              |               |              | \$338,284.77 |
| 1300.000     | Freight                          |                  |              |               |              | \$804.53     |
| 2100.000     | Cost of Sales                    |                  |              |               | \$252,983.56 |              |
| 2150.000     | Opening Work in Progress         |                  | \$556.20     |               | \$556.20     |              |
| 2200.000     | Inventory Adjustment Account     |                  |              |               | \$6,054.12   |              |
| 2260.000     | Unrealised Gain Loss on Exchange |                  |              |               | \$11.23      |              |
| 2270.000     | Realised Gain Loss on Exchange   |                  |              |               |              | \$448.71     |
| 2300.000     | Inventory Revaluation Account    |                  |              |               |              | \$9.94       |
| 2350.000     | Less Closing Work in Progress    |                  |              | \$556.20      |              | \$556.20     |
| 3110.000     | Advertising                      |                  |              |               | \$1,817.39   |              |
| 3120.000     | Freight                          |                  |              |               | \$10,148.40  |              |
| 3130.002     | Repairs & Maintenance            |                  |              |               | \$2,935.58   |              |
| 3140.000     | Travelling & Accommodation       |                  |              |               | \$2,988.99   |              |
| 320.000      | Commission                       |                  |              |               | \$21,725.88  |              |
| 330.000      | Directors Fees                   |                  |              |               | \$40,000.00  |              |
| 340.000      | PAYE                             |                  |              |               | \$9,642.52   |              |
| 350.000      | Staff Wages And Salary           |                  |              |               | \$22,612.68  |              |
| 510.000      | Accounting                       |                  |              |               | \$278.96     |              |
| 520.000      | Bank Charges                     |                  |              |               | \$56.00      |              |
| 530.000      | Depreciation                     |                  |              |               | \$34,228.60  |              |
| 540.000      | Insurance                        |                  |              |               | \$722.55     |              |

You also have the option of assigning a **Short Name**, which will override the Report Title as the Worksheet Name. This can be useful if your Report Title is long and you are running multiple reports to the same Excel Workbook.

The **Short Name** is also used as the Default File name when sending Reports to Disk File and can be set on Analysis Reports, Custom Reports and GL Financial Reports as well as Report Layouts.

For example, go to: Navigator > Reports > General Ledger > Transaction Reports, then right-click on Transaction Sequence and select **Edit Layout**.

Enter a Short Name in the **Short Name** field.

Customise Layout - Transaction Sequence

Layout Name: Transaction Sequence    Sort Order: 10    Tab Order: 0

Report Title: Transaction Sequence    Tab Name: [Dropdown]

Short Name: Trans    Selections: [Icon]

Transaction | Preferences | Users

Filter/Sort

Save    Cancel    One Time

Click **Save**, then select the Transaction Sequence Report in the Navigator and change the **Destination** to **Excel Worksheet**. Click **Run**.

The report runs to Excel with the Short Name as the Worksheet Name.

| Account Co Name                         | Debit      | Credit    | Batch Class  |
