

## Tips & Tricks

### Renaming Address Fields

Did you know you can rename the Address fields and Delivery Address fields on Customers and Creditors?

To change Address Field labels, go to Navigator > Setup > Company > Configuration > Settings > Display Labels Tab.

Click  **Edit** (F11) then enter the Description you would like to use for each field.

Click  **Save** (F9).

Now when you open a Customer or Creditor record, the Address Name fields will display accordingly.
